Kaalo Nederland 2020 Annual Report

The Kaalo Nederland has been helping vulnerable communities in Garowe, the Puntland State of Somalia, to become self-sufficient in every aspect of their livelihood. The following summary is key projects detail that KAAALO Nederland implemented in the different sectors that Kaalo Nederland was focusing on in 2020. The significant programs KAAALO Nederland implemented were: WASH, Protection, Livelihood and Food security, emergency projects, and education.

Stichting KaaloNederland (SKN) has a long history of supporting educational programs like; Building schools and capacity building of the education sector. Kaalo Nederland and our partner, Wilde Ganzen Foundation, funded education, notably the Puntland Institute of Management and Technology (PIMAT)

Generally, Stichting KAAALO Netherlands (SKN) focuses on several core program areas includes Food and Shelter, Education and skill development Programs, Health facilities and supporting hospitals, Water and Sanitation Program, Livelihoods Projects of food security, Child protection and Human rights, and Empowering of poor women, and young people to reduce poverty and unemployment in Somalia.

Last year (2020), KAAALO Nederland planned many projects to implement, but according to the COVID19 issues, KAAALO implemented four projects. Covid-19 influenced globally, so KAAALO Nederland made efforts to respond to the covid-19, so

half of our projects were concerned with Covid-19 response projects. In the previous year (2020), Although Kaalo Nederland implemented both Humanitarian and development projects includes

Under the livestock and livelihood sector, Kaalo Nederland, with partner Wilde Ganzen implemented the "Camel Transporters project, a Better Future for the Nomad population." The project objectives were to create employment and income for and combat food and vitamin deficiencies in nomads. ; To improve the living conditions of the nomads and their cattle in this project, Kaalo Nederland distributed the camel herders 50 iron 25-liter jerry cans, two water tanks of 4000 liters for the camels. However, Kaalo purchased a mini-bus and handed over cooperative milk committees. Also, the number of training and community awareness conducted.

In 2020, Kaalo implemented an emergency Covid 19 response Project in Camp Shabelle of Garowe District Nugal Region, Puntland-Somalia. This project supported 500 households, including IDPs and Vulnerable people, including children, marginalized young girls, boys, persons with disabilities, women, and men to prevent COVID-19 and other pandemic diseases in Camp Shabeelle IDPs.

In 2020, with funding support from Wilde Ganzen in Netherlands, Kaalo Nederland continued implementing emergency response projects of COVID 19 Response Project of IDPs in Budunbuto, Nugal region.

The KAALO NEDERLAND has the vision to provide sustainable livelihoods projects to support the most vulnerable communities in the areas: food and shelter, education and skill development programs, health facilities, water and sanitation, livelihoods projects of food security, child protection, and human rights, and empowering of poor women, and young people to reduce poverty, and unemployment in Somalia. This active organization is one of the initiators of many reconstruction projects in Somalia.

About KAALO Nederland

KAALO Nederland is an international NGO, was founded in 1995 by Somali Dutch intellectuals. The purpose was to provide sustainable livelihoods projects to support the most vulnerable communities: food and shelter, education and skill development programs, and health facilities. The KNLD is the organization that initiates many reconstruction projects in Somalia. Stichting KAALO Nederland works closely with partners in Somalia. The starting point is always the vulnerable community's demand and needs and internally displaced peoples, including poor children, youth, and women. This has created an indispensable support base.

KAALO Netherlands works with local organizations to sustainable development projects for the people of Puntland in Somalia. Stichting Kaalo Netherlands supported and implemented many projects

of building shelters, schools, hospitals, the construction of water reservoirs, and the fishing projects in Somalia a huge impulse. Kaalo Netherlands is active with and for young people. Young people have in Somalia more chances of one hopeful future required to radicalization against to go and they too save for the dangerous one trip to Europe. The SKN focuses on sustainable development projects that directly meet the needs of the local population. For a long time, the emphasis was on projects in the area of education and health. Helping mothers and children from the nomadic and farming communities is another central theme. At the moment attention is focused on the (vulnerable) young people in the Puntland state, Started the capital, Garowe.

SKN MISSION

SKN enhancing and supporting the livelihoods of poor communities in Somalia through environmentally sound and sustainable development while focusing on solidarity with the poor neighborhoods, advocacy, transparency, human rights, and volunteerism.

SKN VISION

SKN strives to sustain a poor community's livelihoods in Somalia in a stable and economically vital Somali community living in peace, prosperity. The impoverished community has a strong to overcome hunger, poverty, and unemployment.

1.1. Emergency Covid 19 response Project in Camp Shabelle of Garowe District Nugal Region, Puntland-Somalia

With the support of our partners, KAALO NEDERLAND implemented Covid 19 response project. The target populations that benefited from this project were IDPs in Camp Shabelle, and Shabelle is the name of a desolate refugee camp created in the nineties. Here more than 500 families currently reside. Most of them are from Mogadishu and its environs and fled the chaos and threat after President of Siad Barre's departure. Life in the camp has dwindled for decades. This project's target populations are poor and low-income families that more than half are young and women marginalized, which estimated 75% of the last census are unemployed.

The vulnerable communities such as children, women, IDPs, persons with disabilities, and marginalized young girls face depilated difficulties. And boys are already dealing with multiple crises, internally displaced people (IDPs), facing food insecurity, and being exposed to the climate, socioeconomic and political shocks during the Coronavirus (COVID-19) pandemic disease. The project partners included IDPs in Camp Shabelle, the camp committees, the IDPs department of local government, and village administration.

The project target beneficiaries more than 500 households and indirect beneficiaries were more than 15,000 people with Camp Shabelle IDPs and Garowe district. In the year 2020, the COVID19 spread fast most of the world and hugely affected all the community's aspects: economic activities,

learning and schools, working fields, social movements, and international and local flights. So many countries locked down the cities. Somali Federal government and its member states burned both international and local flights burned social movements among the regions, social meetings, and sports clubs.

Outbreaks of COVID-19 in Puntland, especially in Camp Shabelle IDPs, posed a massive threat to these people who are already extremely vulnerable due to displacement. The COVID-19 pandemic preparedness and response required a robust collective effort through a whole-of-government approach in partnership with international and local actors.

Stichting Kaalo Nederland (SKN) has been accomplished during the implementation of the Emergency COVID19 Response Project in Camp Shabelle of Garowe District in Nugal region, Puntland-Somalia the following project objectives and goals:

a) Raised Awareness and Mobilized to the IDPs and Vulnerable people, including children, marginalized young girls and boys, persons with disabilities, women, and men to prevent the outbreak of COVID-19 and other pandemic diseases in Camp Shabelle IDPs through radios, preparedness response messages, and materials with panels and standing boards.

b) Conducted training on preventing coronavirus disease outbreak (COVID-19)

to the IDPs and Vulnerable people in Camp Shabelle through COVID 19 preparedness response materials with community mobilization.

c) Provided Personal Protective types of equipment (PPE) to prevent the outbreak of COVID 19

d) Provided food distribution items to the affected coronavirus disease IDPs and marginalized target groups to save their lives.

Distribution of food items including 25kg rice, 25kg flour, 3 litre of food oil, 3kg of dates (timir) to each of the 500 households in Camp Shabeelle IDPs and vulnerable community including vulnerable of women, children, men and personally with disability.

1.2. Camel Transporters: A Better Future for the Nomad population Project

In 2020 Kaalo Nederland and its partner Wilde Ganzen implemented a project described *“Camel Transporters, A Better Future for the Nomad population”* the project objectives were to create employment and income for nomads, Combat food and vitamin deficiencies in nomads and to improve the living conditions of the nomads and their cattle in this project Kaalo Nederland distributed the camel herders 50 iron 25-liter jerry cans, Two water tanks of 4000 liters for the camels, although Kaalo Purchased mini-bus and handed over milk cooperative committees also number of training and community awareness had conducted. The project expectation is to support camel famers, and vulnerable community in rural area through income generation activities projects to adapt in the market labour opportunities to overcome huge unemployment of vulnerable women and youth in nomads, and to increase family income generation activities to reduce an extreme poverty existing in camel farmer’s families. The impact of this project is that the beneficiaries improved their lives through camel production income generation activities, and selling of camel milks from nomads to the Garowe.

Nugaal Milk Corporation and Association stored a fresh milk from camel farmers of Nomads this point of sale or milk shop in Garowe that sells camel milk Supported by Kaalo Nederland to increase Camel Milk Productions and income generation activities of the nomads.

A man drinking fresh camel milk at the camel milk sales shop supported by Kaalo Nederland. He said he was happy to buy camel's milk to drink. Camel milk is a very sweet, very nutritious milk, very energetic, very good for human healthy. They even prevent the corona virus and the anemia I drink every day. I sell it to my children and family to make them grow. Camel milk you got so much pleasure than other foods, you don't need to go to the gym or do more exercises. You will find that exercise builds up

the body and contains many nutrients that contribute to body growth. Even camel milk are more important to the brain, and camel milk are more treats to the high of blood pressure and diabetes diseases.

Abshiro Ibrahim said “we drank camel milk and found the many activities and healthy, we are enjoyed very much to drink camel milk. Camel milk has many benefits, It contains a lot of protein and nutrients from camel milk. I have never seen anything more useful than camel milk. People do not understand but they do understand when they drink camel milk. Drink camel's milk to get healthier. I advised my all family to drink camel milk now they have drunk it all they got very healthy and more body activities. We are grateful to Kaalo Nederland and its partnership for inspiring this camel milk production project. They have created many jobs and improved the lives of many nomads. Thank you so much”.

One Camel milked to produce 4 sellable glasses each glass is costs \$1 equivalent to Somali.Sh.40,000

1.3.COVID 19 Response Project of IDPs in Budunbuto, Nugal region, Puntland-Somalia

"According to the World Health Organization the Corona-Virus Pandemic (COVID-19)", the number of cases caused by the Covid-19 pandemic has now surpassed over millions. In contrast, the death toll has increased to about 100,000. Currently, Somalia has confirmed three thousand, eight hundred and sixty-four (3,864) cases of COVID-19 in Somalia, with 99 cases related deaths reported and 3,089 persons recovered. According to the Global Health Security Index 2019, Somalia's capacities to prevent, detect and respond ranked 16.6 out of 100. There are no existing laboratories that can test for COVID-19, even though **on the 24th of**

March, Somalia received a COVID-19 donation, including testing kits from the Jack Ma Foundation.

Budunbuto Village in Dangorayo District of Nugal Region 120km away from Garowe Capital City of Puntland State of Somalia, and 20km away from Dangorayo District in Nugal, Budunbuto village falls east of Garowe District and Southwest in the Dangorayo District. Five hundred twentyhouseholds, most of whom are IDPs, live in Budunbuto Village & 300 households of surrounded by rural areas in that village. Animals lived in Budunbuto village and surrounded areas including; Camels, Goats,

Sheep, and Cows, and estimated more than 5,000 Animals are living.

In Budunbuto and it surrounded by rural areas. KAALO Nederland in Garowe enhanced the livelihood of underprivileged IDPs in Budunbuto through environmentally sound, sustainable development while focusing, advocacy and raising awareness to the vulnerable community.

The IDPs project in the Budunbuto Village of Dangorayo district, in Nugal Region, Puntland-Somalia, improved livelihoods of IDPs and Marginalized project target groups in Budubuto village in Dangorayo district, distributed food items to enhance the lives of IDPs and marginalized project target groups and change the lives of poor community and IDPs in Budunbuto Village of Dangorayo district in Nugal Region, Puntland-Somalia.

Stichting Kaalo Nederland (SKN) successfully the implemented during Emergency COVID 19 Response Project to the drought-affected community in Budunbuto Village of Dangorayo district in Nugal region, Puntland-Somalia the following project objectives and goals:

a) Raised Awareness and Mobilized to the IDPs and Vulnerable people, including children, marginalized young girls and boys, persons with disabilities, women, and men, to prevent the outbreak of COVID-19 and other pandemic diseases in Budunbuto Village of Dangorayo district in Nugal region through radios, preparedness response messages, and materials with panels and stand boards.

b) Provided food distribution items to the affected coronavirus pandemic and drought-affected communities and marginalized target groups to save their lives.

The Stichting KAALO Nederland in Somalia is committed to supporting the IDPs and poor host communities affected by COVID 19 pandemic. SKN strives to sustain the livelihood of vulnerable communities in Somalia to overcome hunger, poverty, and unemployment. Our mission is to enhance the livelihood of underprivileged communities in Somalia through environmentally sound and sustainable development while focusing, advocacy, transparency, human rights, and volunteerism.

The chairman of Budunbuto of Dangorayo district Mr. Dhoodi Dualle appreciated to Kaalo Nederland for Provision of food distribution items to the drought and corona virus disease affected community and IDPs in Budunbuto village and surrounded rural areas in order to save their lives, and Raising awareness and mobilizing to the IDPs and affected drought community in Budunbuto on prevention of corona virus disease outbreak (COVID-19). He requested to continue this support of SKN until the rain coming. He says “this emergency project coming the time needed because this district affected drought and COVID 19 pandemic” Thank You Kaalo Nederland for your immediate support and assistance to IDPs and vulnerable community in Budunbuto.

Project Impact (Success Story)

Ayan Khaliif aged 39 years, is a mother of 6 children, 4 boys and 2 girls. She told her story when Stichting Kaalo Nederland implemented “Emergency COVID19 Response Project to drought affected community in Budunbuto of Dangorayo district in Nugal region, Puntland-Somalia”. Ayan was born and brought up in pastoral life near in uuskure a small town near in Dangorayo district of Nugal region in

Somalia. She moved with her mother and 6 of her children in Uuskure town where she was working with her mother and family small livestock farming but affected drought that has led to a critical decline in food security and water shortage among the pastoral communities and poor village households. Due to the failure of the Gu’ April long rains in some areas and below average rainfall in others and break the destructive cycle of drought and hunger that affected poor households and vulnerable rural pastoralists.

She later moved to Budunbuto Village in Dangorayo District of Nugal Region 120km away from Garowe Capital City of Puntland State of Somalia, and 20km away from Dangorayo District in Nugal, Budunbuto village falls east of Garowe District and South west in the Dangorayo District where she opened a small shop of her own. The little she got from the shop she used to cover the fees of her children and family daily live expenses and to her part time formal education school in Budunbuto but all her livestock were died due to lack of pasture and water crisis and disease outbreaks.

She is a mother who did not get an opportunity for livelihood projects in their village but now has got a chance of becoming 500 households’ Emergency COVID19 Response Project to affected drought community in Budunbuto of Dangorayo district in Nugal region, Puntland-

Somalia implemented by SKN in Garowe, Somalia whose objectives is to raising awareness and mobilizing to the IDPs and affected drought community in Budunbuto on prevention of corona virus disease outbreak (COVID-19) and providing food distribution items to drought and corona virus affected community and IDPs in Budunbuto and surrounded rural areas in order to save their lives. She says “we have enough awareness raising and community mobilization on how to prevent corona virus pandemic, and enough food items including rice, flours, sugars, and oil food those covered our immediate needs in our daily

Finally, this project of Emergency COVID19 Response Project to affected drought community in Budunbuto of Dangorayo district in Nugal region, Puntland-Somalia achieved the project goals, and objectives. This project raised community awareness and mobilizing to the IDPs and affected drought community in Budunbuto on prevention of corona virus disease outbreak (COVID-19) and improved lives of many vulnerable households through providing of food distribution items to drought and corona virus affected community and IDPs in Budunbuto and surrounded rural areas in order to save their lives.

lifestyle. This project changed our lives because we got enough food items which improved our livelihood of our households”.

She concluded an appreciation for the support of Stichting Kaalo Nederland of this project of emergency COVID19 Response Project in Budunbuto, Puntland-Somalia which strengthened the better livelihood of IDPs, drought affected communities and vulnerable people and. She has a hope to be one of the famous of business women in this village if she got a change of investment and entrepreneurship project in Budunbuto of Dangorayo district, Somalia

1.4. Youth Training Skills Project

Stichting Kaalo Nederland (SKN) has long history for supporting educational programs like; Building schools, capacity building of education sector works (Headmasters, CECs, teachers and so on) in 2020 Kaalo Nederland and it's partner Wilde Ganzen working last decides together to supported education particularly Puntland Institute of Management and Technology (PIMAT) which is a private institute of management and technology based in Garowe, Puntland state of Somalia. The Institute offers tailor-made training and development programs for youth to specialize in scheming and realizing career development goals in vocational training and diploma programs. PIMAT offers youths trainings that help in acquiring skills needed in the job market. PIMAT is the bridge between youths and good career options.

Prof. Sulub lecturing PIMAT class

So by the above reason to fight massive unemployment and unskilled youth, Kaalo Nederland and PIMAT established a course named Diploma of Management and Technology to create skill development for Somali youth. The course started in September 2020 the learners doing four course units; English, Introduction to Accounting and Book keeping and Introduction to ICT. The students coming class whole the week except the Friday and study system and courses activities were going smoothly, the are doing assignments, CATs, midterm i.t.c, the day to day activities of the course was under the management of PIMAT and Kaalo Nederland role was to monitor and evaluate how things are going on. The final semester exam was done December 2020 and now whole the January 2021 they take holiday and study will restart February 2021.
